

REMARKS

Applicants assert that the above amendments to the claims were made to improve readability or to broaden the scope of the claims, and not for reasons of patentability, and thus should be afforded full protection under the Doctrine of Equivalents.

Accompanying this Preliminary Amendment are a Substitute Specification (for Publication) and a marked-up version showing the changes therein.

It is believed that the application is in condition for allowance. Accordingly, an early Notice thereof is respectfully requested.

Respectfully submitted,

Gregory W. Robinette
